SP1 Industry L
It can be as easy as that

**FEATURES**

- for holding 1 industrial size load carrier on the left
- loading and unloading with hand pallet truck possible
- virtual coupling/drawbar system

- can be loaded and unloaded with a manual lift trolley
- ergonomic handle on castor side
- self-locking drawbar

- can be loaded and unloaded with a manual forklift trolley
SP1 Industry L
It can be as easy as that

Art. no.: 518-3001

dimensions outside l x w x h in mm:
• 1855 x 1267 x 1106

effective surface l x w x h in mm:
• 1200 x 1030
• suitable to hold max. 1 industrial pallet 1200 x 1000

effective depth in mm:
• 70

max. loading capacity in kg:
• 1000

max. velocity in km/h:
• 6

max. towing capacity in kg:
• 3000

technical data:
• virtual coupling/drawbar system for optimum directional stability
• stable, welded hot-dip galvanised welded steel construction
• securing the drawbar against uncontrolled falling if the spring breaks
• which are positioned at right-angles to the direction of travel
• ergonomic handle on castor side

serial running gear:
• 2 swivel castors with integrated central locking system and 2 fixed castors, ø 160 mm, polyurethan, 92° Shore A
• double ball bearing in rotating assembly and ball bearing in hub
• foot protection on all castors

optional:
• weather protection
• Double-pivot steering - particularly manoeuvrable
• DIN A5/A4 clipboard
